Five Star[®] Launches New EZ-Cure[™] Grout

FAIRFIELD, CT., FEBRUARY 22, 2011 -- Five Star Products, Inc. of Fairfield, Connecticut is pleased to announce the launch of their new Five Star[®] EZ-Cure[™] Grout. EZ-Cure[™] Grout is a revolutionary cement-based, non-metallic, non-shrink grout for supporting machinery, equipment and structures. Formulated with an advanced additive technology, Five Star[®] EZ-Cure[™] Grout requires no wet-curing procedures or curing compounds. EZ-Cure[™] supports many of the same applications as other cement-based grouts, but with less installation costs and hassle.

"We are proud and excited at Five Star Products, Inc. to develop products that will forever change the construction industry," stated David Babcock, President and CEO. "With Five Star[®] EZ-Cure[™] Grout you get a perfect grout set, without wet-curing, shrinkage or cracking, every time."

Five Star[®] EZ-Cure[™] Grout is available as a single-component system in 50 lb. bags for both standard and high-flow applications. No wet-curing procedures or curing compounds are needed. Five Star[®] EZ-Cure[™] Grout is perfect for equipment requiring precision alignment; it does not contain gas generating additives and is non-shrink from the time of placement.

About Five Star Products, Inc.: Five Star Products, Inc. is a worldwide provider of high-performance, versatile, non-shrink cement and epoxy-based construction grout and concrete repair solutions for use in the industrial, commercial, infrastructure and marine markets.
