

FIVE STAR SUMMERSET® Extended Working Time Additive

PRODUCT DESCRIPTION

Five Star Summerset® is an additive which extends the working time and retards the set of certain Five Star® rapid setting hydraulic cement products. Five Star Summerset® should be used when working in hot weather or placing a large amount of material at one time to provide ample working time to place and finish the material.

For use only with specific Five Star® rapid setting products which call for Five Star Summerset® by name such as Five Star Structural Concrete®, Five Star® Instant Grout, Five Star® Highway Patch, and Five Star Centri-Cast® mortars.

INSTRUCTIONS

The working time and set time of certain Five Star® rapid setting products may be extended by adding Five Star Summerset® to the mixing water, thoroughly mixing into water, and then adding the dry material. Total dispersion of Five Star Summerset® in the mixing water will result in a consistent working time and set time for the entire batch. Do not add Five Star Summerset® to the dry material. Each tube of Five Star Summerset® will extend the working time by approximately 30% - 40% percent. A general guide for the use of Five Star Summerset® is for every 10°F (6°C intervals) above 70°F (21°C), one tube per unit of material should be used. That is, use one tube if Five Star Product, water, and air temperature are at 80°F (27°C). Use two tubes if material, water and air are at 90°F (32°C). Up to 3 tubes per unit may be added.

Remember: Five Star Summerset® extends the set time and thus slows down the rate of early strength gain. Five Star Summerset® does not reduce the ultimate compressive strength or compromise other properties.

CAUTION

Five Star Summerset® contains an organic acid which will cause irritation. Avoid contact with eyes and prolonged contact with skin. Immediately flush with plenty of water for at least 15 minutes. Call physician. Wash skin thoroughly after handling. Keep product out of reach of children. **PRIOR TO USE, REFER TO SAFETY DATA SHEET.**

For worldwide availability, additional product information and technical support, contact your local Five Star® distributor, local sales representative, or call Five Star Products' Engineering and Technical Service Center at 1-800-243-2206.
