Five Star Products Granted ISO 9001:2008 Quality Certification

FAIRFIELD, CT., DECEMBER 29, 2010 -- Five Star Products, Inc. of Fairfield, Connecticut is pleased to announce the achievement of ISO 9001:2008 quality certification from the International Organization for Standardization (ISO); Five Star Products, Inc. is one of the first companies in the industrial construction products industry to reach this new certification level.

ISO 9001:2008 is the highest level of quality certification achievable and addresses the "Quality Systems" a company has in place. Certification requires extensive examination from independent quality auditing organizations and achievement demonstrates the company's commitment to quality both in its products and procedures.

"Each member of the Five Star Products, Inc. family is committed to providing the highest quality industrial and construction solutions and for contributing to the success of the company," stated David Babcock, President and CEO. "Achievement of ISO 9001:2008 certification is proof of this commitment."

About Five Star Products, Inc.: Five Star Products, Inc. is a worldwide provider of high-performance, versatile, non-shrink cement and epoxy-based grouts, protective coatings and concrete repair solutions for use in the industrial, commercial, infrastructure and marine markets.
