

FIVE STAR FOCUS

For Precision Support of Heavy Machinery & Equipment

FIVE STAR® GROUT

Depend on the industry's leading cement-based, nonmetallic, non-shrink fluid grout for supporting machinery, equipment and more.

Anchors and dowels —●—

Machinery and equipment requiring precision alignment —●—

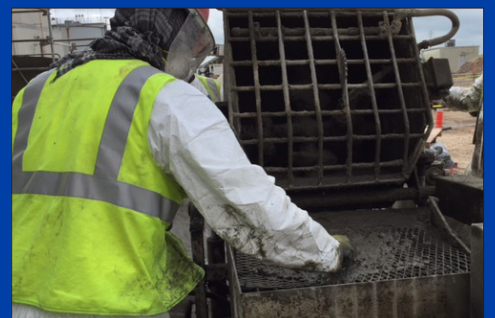

Support of tanks and vessels —●—

Structural steel and precast concrete —●—

Also available for nuclear safety zone applications —●—

Don't Trust Your Projects to Anything Less Than Superior Results

Increase productivity and overcome challenging projects with **FIVE STAR® GROUT**

FIVE STAR® GROUT

Five Star® Grout is the industry's leading cement-based, nonmetallic, non-shrink grout for supporting machinery and equipment. When tested in accordance with ASTM C 827, Five Star® Grout exhibits positive expansion. Five Star® Grout meets the performance requirements of ASTM C 1107-02 Grades A, B and C, ASTM C 1107-07, and CRD-C 621-93 specifications for non-shrink grout over a wide temperature range, 40 - 90°F (4 - 32°C).

UNIQUE PRODUCT ADVANTAGES

- Permanent support for machinery requiring precision alignment
- Does not contain gas generating additives, such as aluminum powder
- Non-shrink from the time of placement
- Air release technology per ACI 351.1 R
- 95% Effective Bearing Area (EBA) is typically achieved following proper grouting procedures
- Provides placement versatility: pour, pump or dry pack
- 45-minute working time

WIDE RANGE OF USES

- Grouting of anchors and dowels
- Support of tanks and vessels
- Available for Nuclear Safety Zone Applications
- Grouting of machinery and equipment to maintain precision alignment
- Non-shrink grouting of structural steel and precast concrete
