## Determining Manufacture Date for Five Star® Cementitious Products

Five Star Products assigns a 10-digit lot number to all its cementitious products. This lot number is located on the bottom of a bagged product or on the side of a piled product.

The last four digits represent the day and year of manufacture. Five Star Products uses the Julian calendar to assign the day. The Julian calendar is a 365-day calendar with January 1 starting at day 001. To obtain the manufacturing date, look at the last four digits of the lot number.

### LOT No. 505340**1423**

The manufacture day is Julian day 142. By accessing the Julian Calendar chart below, 142 corresponds to May 22nd. The manufacture year is represented by the last digit – 3 which would be 2023. Thus, lot number 5053401423 was made on May 22, 2023.

Refer to the current Five Star® Technical Data Sheet for the product's shelf life. If your product is beyond the shelf life date, as determined by the lot number, do not use. Properly dispose of all unused Five Star® product.

For additional information, contact your Five Star® Technical Sales Representative.

### JULIAN CALENDAR

DAY	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	DAY
1	1	32	60	91	121	152	182	213	244	274	305	335	1
